How it Works

Each term, support your child to pick the homework they wish to complete, aiming to collect at least 5 stars in total.

Eagle Class Homework Pick and Mix <u>Autumn</u>

	My Communication	My Thinking		My Well-being		My Body		My World
•	Share a fantasy story. Look at the pictures, follow the words and choose your favourite characters. Can you predict what might happen next? Can you join in with any repeated phrases?	• Number hunt. What number is your front door? How many steps are there in your house or flat? If you walk to school, how many steps does it take you?	•	Help to keep your home clean and tidy by doing a household job. Maybe put the washing on the line, or vacuum?		Think of all the things that we do to keep the different parts of our body clean and healthy. Can you list them?		Can you try and create some shadow puppets? How do you make them appear smaller or larger? What characters/ animals can you make?
•	We are going to be learning about instructions. What different types of instructions can you find at home? Are you able to follow them? Can you create your own for a familiar routine?	• We will be looking at astronauts this term. With an adult, explore the Hubble Space Telescope website. Check out the amazing gallery images!	•	Take part in a exercise activity. May go swimming or perhaps you would like to have a brisk walk. Do you feel energised afterwards?		Prepare a healthy meal, include something that you haven't tried before. You may be surprised!	•	Can you create some mini sculptures with ice? Maybe fill ice cube trays with water and a little food colouring, and build a tower.
•	Explore somewhere new! Maybe a park that you have never visited, or a new attraction. What do you discover? Create a short report on it.	• Cut paper or card into circles, triangles and squares. Can you use them to make a pattern? You could make a repeat pattern or fit shapes closely together in a mosaic.	•	Get creative and design a healthy picnic for your family and then prepare it. If the weather isn't great, pop a blanket on the floor and enjoy an indoor picnic!	•	Can you learn a new dance? Either one that you can copy, or if you are feeling really adventurous why not create your own?	•	Imagine you are setting off an adventure to space—what 5 things would you need to take with you and why?
